The Fisheries Elementary School at Bekal in South Kanara district is a permanent school. Standards I to IV have two divisions each and the standard V has one division. The school has a staff of 9 teachers sanctioned as below:-

The strength of the school has increased to 302 from 269 in June 1954. The classwar strength and average attendance for the months of October and December 1954 are submitted below.

The strength in Standard I is 100 and the average attendace over 80. The two teachers who are in charge of the two divisions find it difficult to manage the division with such a large number of small boys who are only beginners in the school. Standard I, therefore, requires to be trifurcated. There are sixty seven fisher children still to be admitted to the school and these children could not be admitted for want of an additional teacher and accommodation. The financial implications in trifurcating standard I are as follows:-

	Rs. A. P.
I. Recurring.	
Pay of one higher elementary grade teacher on 30-1-50 per mensem	360 0 0
Dearness allowance to the teacher at Rs.19/- per mensem	228 0 0
	588- 0- 0 or 600- 0-0
II. Non-recurring.	
Cost of furniture including packing and freight charges	300- 0-0

I, therefore, request that Government may kindly be pleased to accord sanction to

(i) the trifurcation of standard I of the Fisheries Elementary school at Bekal, and

(ii) the employment of Higher Elementary grade teacher for a period of one year from the date of appointment to handle the trifurcated division of standard I.
